

This Place (Acoustic)

Rancid

This place is a tale of terror
This place is a ghost town now
This place has lost its people
This place has lost its charmThe coals on the fire ain't burnin' no more
In the lake shore foundries
The workers mislead by corporations
That knows no boundariesThis place is a tale of terror
This place is a ghost town now
This place has lost its people
This place has lost its charmThe land of liberty has been betrayed by
The monster corporations
The monster won't stop 'till
It lays waste to everything
