

# This Place (Acoustic)

## Rancid

This place is a tale of terror  
This place is a ghost town now  
This place has lost its people  
This place has lost its charm  
The coals on the fire ain't burnin' no more  
In the lake shore foundries  
The workers misled by corporations  
That knows no boundaries  
This place is a tale of terror  
This place is a ghost town now  
This place has lost its people  
This place has lost its charm  
The land of liberty has been betrayed by  
The monster corporations  
The monster won't stop 'till  
It lays waste to everything
