

My Sleep Pattern Changed

The Early November

I hear your angel voice
It makes me feel so nice
I like to sing along
Along and forever I know wrong and right is gone tonight
Nah na na na na na na na...I hear your angel words
Inside and overheard
I'll fall in love tonight The one time I go hide
I know wrong and right is off tonight
Nah na na na na na na na...I hear your angel song
I hope I sing along
