

No One's Gonna Love You (Instrumental)

Nicole Willis & The Soul Investigators

Baby, I tried
About a thousand times
But it all went wrong
You couldn't empathize
Try to bridge the gap with me, baby
Try the man therein
But without your forgiveness, baby
I might as well just quit
But I just need time (baby, baby)
Can't seem to break from your touch
Got my breaking heart (no one, no one)
No one's gonna love you as much
But at the same time (baby, baby)
Can't seem to break from your touch
Got my breaking heart (no one, no one)
No one's gonna love you as much Somewhere down the line
It all turned upside down
Tell me what went wrong, baby
Why'd you have to put me down?
Remember how you used to love me?
How I was your queen?
Now I'm the center of another, forgot you
Its sent you wandering
Yet I just need time (baby, baby)
Can't seem to break from your touch
You got my breaking heart (no one, no one)
No one's gonna love you as much
Yet at the same time (baby, baby)
Can't seem to break from your touch
You got my breaking heart (no one, no one)
No one's gonna love you
