Bring Me To Life (feat. Milly Pye)

MK

Good Morning
Good Morning
Good Morning
Good Morning
Good Morning
Good Morning
Good Morning
Good MorningI just came back from the other side
From the black wild world, all colors run dry
And all my demons feels like
They've disappeared tonight
Like I just broke into the morning lightYou bring me to life
You bring me to life, you
Now the world looks so damn beautiful
And you've opened up my eyes
Bring me to life, youI just came out of the darkest night
Where strangers got me hypnotized oh
No one gets out of here alive
But today's not the day, not the day that I dieYou bring me to life
You bring me to life, you
Now the world looks so damn beautiful
And you've opened up my eyes
Bring me to life, youAnd all my demons feels like
They've disappeared tonight
No, today's not the day, not the day that I dieYou bring me to life
You bring me to life, you
Now the world looks so damn beautiful
And you've opened up my eyes
Bring me to life, you
