You Should Know Better

Kenny Wayne Shepherd

Who's that sneaking
Around behind my back door?
Is that you comin' back
To do what you did before?
Woo one wrong move will surely
Get you caught in the act
That's a fact
You should know better
And you should know better than that
When you come home on that stuff
Does he know where you've been?
Do you tell him you've been workin'?
Or just hangin' out with your friends
Oh baby one wrong friend will surely
Get you caught in the act
That's a fact
You should know better
And you should know better than that
You should know better than that
You should know better
When you gonna learn, pretty babe
When you gonna learn that it all comes back
You get burned yea, when you play with fire
And you should know better than that
Take it, take it
Woo
Oh yeah, somebody whispers somethin'
Someone else turns it around
Pretty soon there's a rumor flyin'
It's gettin' all over the town
It's a sticky little situation
You've been puttin' me in
'Cause I like what you do
I just know how the story ends
And one wrong move will surely
Get you caught in the act
That's a fact
You should know better
And you should know better than that

You should know better than that
You should know better
You should know better
That's what I am trying to say to you
