Sold

Logan Merz

I spent my time in the market place
Where love and other drugs are in the same place...

Time has a funny way of healing broken minds,
just when you turn your back, you will find...

There I sold on you
from the moment I set my mind.
On the memories of time, before you came
And save my life...

I may have spent some money on alcohol
Lost all of my good sense and drank it all...

There's no way of telling what life has left in store
So you gotta go on linving like there's more

'Cause I sold on you
from the moment I set my mind.
On the memories of time, before you came
And save my life [x2]

And save my life
And save my life...
