I'll Follow You (feat. Jesse Clegg)

Kentphonik

Darling I,
Wanna tell you how I feel tonight,
Maybe it's time,
To let our defenses down, make it right.

Nobody sees you for who you are,
Let's leave this town
Make another start
Nobody ever needs to know.

I'll follow you wanna go go go go go,
I'll follow you wanna go go go go go,
I'll follow you wanna go go go,

Darling wait,
Before you make another big mistake,
Let's take a break,
Tell each other what we want someday.

Nobody sees you for who you are,
Let's leave this town
Make another start
Nobody ever needs to know
I'll follow you where you wanna go.

You where you wanna go,
You where you wanna go,
You where you wanna go,
I'll follow you where you wanna go.

Wanna go wanna go,
Wanna go wanna go,
Wanna go wanna go,
Wanna go wanna go,
I'll follow you where you wana go go go go go,
I'll follow you where you wana go go go go go,
I'll follow you where you wana go go go go go go go go go...
