

# The Dream Time Machine

WZRD

It's like a dream to me  
All the things that I see  
Started from something small, yeah  
I am the man now  
See, all of the things they said could not be  
Complete, so in control of who I want to be  
Times have changed now  
I've changed, a good difference  
More champagne now  
What I'm seeing, for the world I wouldn't miss it  
It's like a dream to me  
All the things that I see  
Started from something small, yeah  
I am the man now  
Go far beyond my hopes to go  
Fly, you got places to be, can't let the time speed by  
Times have changed now  
I'm strong, a good difference  
More champagne now  
What I'm seeing, for the world I wouldn't miss it  
It's like a dream to me  
All the things that I see  
Started from something small, yeah  
I am the man now
