

# Twilight World

## Anjali

Close the door, sea and shore  
Breeze to shades so magical  
Leave behind discordant minds  
Avarice I leave When I taste tears  
Fortune evades me once more  
And I shift too far  
Yes, I'm sinking  
Through this magical door  
And I don't want to wake up When I see me  
Oh, on these comforting clouds  
And I seem at ease  
Oh, I'm sinking  
Oh, through this magical door  
And I don't want to wake up
