

Take Me Out To A Dancehall

Pat Green

Let your hair down, wear something pretty, don't you know, you make us both look good.
Call your momma tell her you're going out tonight,
It's going to be late, hell we might not make it back at allSo take me out to a dancehall
Tap my foot down to the rhythm
Tell 'em to play them old songs that we all love
And you tell me that you want me and I tell you that I want you too
And I'll kiss your face, whenever you want me to.Some people say, don't waste your time away,
With late night living lovers rendezvous,
Take my hand
Take a chance
Close your eyes,
Yea the rest is gonna come to youSo take me out to a dancehall
Tap my foot down to the rhythm
Tell 'em to play them old songs that we all love
And you tell me that you want me and I tell you that I want you too
And I'll kiss your face, whenever you want me to.I said forget about tomorrow,
I don't care if it comes at all
And if we get a little crazy,
Blame it on the alcohol.So take me out to a dancehall
Tap my foot down to the rhythm
Tell 'em to play them old songs that we all love
And you tell me that you want me and I tell you that I want you too
And I'll kiss your face, whenever you want me to.So darling tell me that you want me
And I'll tell you that I want you too
And I'll kiss your face whenever you want me to
