# Foolish Pride

## Brownstone

Don't let foolish pride get in the way of a good love
Like yours and mineHow could you let me walk outside your door
When there's so much you wanted to say?
How could you just pretend you could ignore
All the feelings that true love has made, ooh baby?Ooh baby, ah baby, I was right there by your side
Through good and bad, ooh baby
Ooh baby, ah baby, let me know the reason why
You're treating me so badDon't let foolish pride get in the way of a good love
Like yours and mine
Don't let foolish pride make you say things
That you don't meanOoh my baby, my sweet baby
I'm the one you held so dear
Now that the weather here is changing
You don't even want me nearYou know in the beginning, everything was rosy
Everything was a okay
Now you're telling me to go
I guess I'll be on my wayOoh baby, ah baby, I was right there by your side
Through good and bad, ooh baby
Ooh baby, ah baby, let me know the reason why
You're treating me so badDon't let foolish pride get in the way of a good love
Like yours and mine
Don't let foolish pride make you say things
That you don't meanDon't let foolish pride get in the way of a good love
Like yours and mine
Don't let foolish pride make you say things
That you don't meanI gotta know, I wanna know, foolish prideOoh baby, ah baby, I was right there by your side
Through good and bad, ooh yeah
Ooh baby, ah baby, let me know the reason why
You're treating me so badDon't let foolish pride get in the way of a good love
Like yours and mine
Don't let foolish pride make you say things
That you don't meanDon't let it, don't let it, don't let it get in the way now
Don't let it, don't let it, don't let it get in the way now
Don't let it, don't let it, don't let it get in the way now
Don't let it, don't let it, don't let it get in the way nowDon't let foolish pride get in the way of a good love
Like yours and mine
Don't let foolish pride make you say things
That you don't mean
