Somewhere In the World

Boney M.

Time, changer of seasons
Time will see another flower growing
Climb over the mountains
There you'll find warm winds blowingSomewhere in the world there is peace of mind
Somewhere in the world that's what I must find
Somewhere in the world there's a place for me in this worldI cannot believe it
Everywhere I see lonely faces
Why have we no answers?
Just some more empty placesSomewhere in the world there is peace of mind
Somewhere in the world that's what I must find
Somewhere in the world there's a place for me in this worldTime, changer of seasons
Time will see another flower growing
Climb over the mountains
There you'll find warm winds blowingSomewhere in the world there is peace of mind
Somewhere in the world that's what I must find
Somewhere in the world there's a place for me in this world
