

Herald the Day

[Des'ree](#)

Herald the day
When the hungry ain't hungry no more
When truth and justice reign
When color don't stand in the way Herald the day
When the hungry ain't hungry no more
Honesty always pays
So you better start mending your ways
Herald the day
When color don't stand in the way
Oh, blessed day, hey hey hey Something's gonna happen
It's written in the air
Something's gonna happen
Revolution is everywhere Herald the day
When the earth ceases to cry
Innocents always pray
So their babies don't have to die
Herald the day
When truth and justice reign
Oh, blessed day, hey hey hey
