

# Baby

## Buckcherry

If I could control my fears  
Where would you be in my life?  
I'll tell you now I'm dangerous  
Love bleeds there in your eyes  
She flies like a butterfly  
Wind underneath her pretty wings  
It's not about the money babe  
Your lessons learned while you sleep, yeah  
Every time I look in your eyes  
Well I see the love light up in you, baby  
Just between the good advice  
Well I've got the love so tight in you, baby, baby  
I got that love so tight in you, baby  
I love it when you're physical  
Underneath you're beautiful  
Jam it on your pillow case  
It's just enough for me, baby, alright, yeah

Every time I look in your eyes  
Well, I see the love light up in you, baby  
Just between the good advice  
Well, I've got the love so tight in you, baby  
Let me catch a ride on your lifeline  
And create some lovely destruction  
Let me catch a ride on your lifeline  
And create some lovely destruction, oh yeah  
Gotta get down, c'mon, yeah  
Every time I look in your eyes  
Well, I see the love light up in you, baby  
Just between the good advice  
Well, I've got the love so tight in you, baby  
Baby, baby, baby  
Baby, baby, baby  
Baby, baby, baby  
Baby, baby, baby, yeah
