

# Forfeit

## The Mayfield Four

Once again I must fold, fold  
Give in, get out before I'm broke  
What was at stake  
Means too much, too much to me  
Tremble as I get up from the table  
'Cause I gambled foolishly And I can't take the drama no more  
So I throw down my hand and say  
It's over, please forgive me  
It's over, I forfeit so I won't bleed Game played well for awhile  
Just to hold, just to feel, just to smile  
It felt so good to breathe again my angel  
But reservation won't release And I can't take the drama no more  
So I throw down my hand and say  
It's over, please forgive me  
It's over, I forfeit so I won't bleed The risk I could not afford to take  
Eclipsed all the love that you made  
And so I'll go, and so I'll go  
And so I'll go, and so I'll go I can't take the drama no more  
So I throw down my hand and say  
It's over, please forgive me  
It's over, please forgive me  
It's over, please forgive me  
It's over, please forgive me
