

The Game

KAPTN

I think she's going out control
I ain't got time for that
You need to get off my back
I'm out here trying to grow
You just can't hold me back
That's news to you, well imagine that You need to get off my back
You need to get off my back
You need to get off my back Im trying to find a way to get through to you You need to get off my back
You need to get off my back
You need to get off my back Im trying to find a way to get through to you I got some bad jawns in the the
Raddison pouring juice with the Florida orange
Driving kinda fast see me swerving down the 101 I'm trying to get my Jeff Gordon on
Bossa Nova
Order Tornado liquor store with my Jordan's on
And we don't stop
Till the break of dawn the party still going four in the morn That bitch was bad when she came in
She worked for her education
I can't take her invitation
Cuz everybody love that bitch
She's like Raymond
Don't tell me your occupation
I work in human relations
That means I fill positions
We're not hiring but I take applications I think she's going out control
I ain't got time for that
You need to get off my back
I'm out here trying to grow
You just can't hold me back
That's news to you, well imagine that You need to get off my back
You need to get off my back
You need to get off my back Im trying to find a way to get through to you You need to get off my back
You need to get off my back
You need to get off my back Im trying to find a way to get through to you I met a thang yesterday say she stay in
LA but Savannah is her Georgia home
She a grown woman that's beautiful special and strong like a song from Raheem DeVaughn And Oh My Gosh
She tender on the inside, no fork eating the filet mignon Said Oh My God
She loves the way I work it, work it
The girl can't leave me alone We're not compatible
Let's keep it casual

I'm bout that vaginal - girl
So why you gotta be so anal
I'm all up at the bar buying shots of Jamo
And she up in the bathroom filling her nasal
When it comes to long term relations
She ain't know
I never put locks on no ones bag I think she's going out control
I ain't got time for that
You need to get off my back
I'm out here trying to grow
You just can't hold me back
That's news to you, well imagine that You need to get off my back
You need to get off my back
You need to get off my back I'm trying to find a way to get through to you You need to get off my back
You need to get off my back
You need to get off my back I'm trying to find a way to get through to you
