

# We Had Everything

## Broods

I turned you into a secret  
To memorize alone  
To justify my behavior  
Define who I've become  
Every time I tell my story  
I begin with you  
And I recall the night when I, when I  
When I broke in two We were young, we were proud, we were promising  
We were hiding our innocence, oh  
We had time, we had love, we had everything  
We had everything, ooh  
We were young, we were proud, we were promising  
We were caught in the heat of it, ooh  
We had time, we had love, we had everything  
We had everything, ooh I turned you into a reason  
To keep myself tied up  
So when I think that I'm crazy  
It was you that screwed me up  
But I don't wanna let you go, oh  
No, I don't wanna let you go We were young, we were proud, we were promising  
We were hiding our innocence, ooh  
We had time, we had love, we had everything  
We had everything, ooh  
We were young, we were proud, we were promising  
We were caught in the heat of it, ooh  
We had time, we had love, we had everything  
We had everything, ooh I told you I would always try to be brave  
(I didn't mean it, didn't mean it, didn't mean it, didn't mean it, didn't mean it)  
You told me you were happy making mistakes  
(I didn't mean it, didn't mean it, didn't mean it, didn't mean it)  
'Til it was too late  
'Til it was too late We were young, we were proud, we were promising  
We were hiding our innocence, ooh  
We had time, we had love, we had everything  
We had everything, ooh  
We were young, we were proud, we were promising  
We were caught in the heat of it, ooh  
We had time, we had love, we had everything

We had everything, oh
