Wrap My Body Tight

Johnny Gill

I fell out of bed
This morning
Oh, something was buggin' me
I couldn't sleep cause I hadn't had any lovin'So I've got to solve this problem out, baby
And darling, I know what the remedy should beAt night when I turn out the lights
I want someone to wrap my body tight
A lover to keep my body warm
I need a woman to wrap my body tightAs the day goes by
Thought weighs heavy on my mind
Only thing I think about
Is tonight the lights go outOoh, and I hope it's you tonight
But not just tonight
Every day and every night I want your love
Hold me, sweet, sweet loveSo I'm telling you my problems
Because I know you know exactly what I need, wooAt night when I turn out the lights
I want someone to wrap my body tight
A lover to keep my body warm
I need a woman to wrap my body tightAt night when I turn out the lights
I want someone to wrap my body tight
A lover to keep my body warm
I need a woman to wrap my body tightOoh
Come on, come on and squeeze me, girl
Warp, wrap my body
Warp, wrap my body
Real tight, yeah, yeahGirl, I have to solve this problem out, baby
And I know what the remedy should be
I need someone to hold me
I need a woman right here, right here next to meAt night when I turn out the lights
I want someone to wrap my body tight
A lover to keep my body warm
I need a woman to wrap my body tightAt night when I turn out the lights
I want someone to wrap my body tight
A lover to keep my body warm
I need a woman to wrap my body tightAt night when I turn out the lights
I want someone to wrap my body tight
A lover to keep my body warm
I need a woman to wrap my body tightCome on work me, hold me, love me
