

Still Thuggish Ruggish

Bizzy Bone

Niggas stay hashed out, hashed out
Mash on these niggas 'til we passed out, passed out
Laugh at these niggas 'cause we assed out, lets bow
These niggas smacked me in the fast lane Last thangs I need is enemies, is that fame?
Well that shit is lame oh no
Original bang bang gotta maintain the main thang baby
Lately always runnin' from ladies 'Cause no one's thinkin' 'bout my babies
Just maybe I'll be lonely left, 'cause y'all gone crazy
Got everybody out here wonderin' if I'm broke, I don't play that
And we pray, and we pray Let everybody say that, and you can do what the fuck you wanna do
Not like way back, hey
Got mail from the payback, it's evil all around
Now, here we are, praise God, don't hold us down Praise God, don't hold us down
Praise God, don't hold us down
If you got to get your clown on wit'cha
Top down when ya hear the cop sound I gotta go punch 'em, calm down
And when you're in the club drunk and you think you see a punk
He just might have a pump in the trunk, and ready to fuck you up
(Up)
You niggas can't get near me by not carryin' the load
(Load) As soon as you get babies, she can't wait to say, hello
These niggas think they Panthers, keep movin', go get some Pampers
Any questions get on your knees and get the answer
Evidently everyday Who the only nigga you know?
Who the only nigga you know, that's thuggish ruggish?
Ooh, ain't shit changed
Who the only nigga you know?
Who the only nigga you know, that's thuggish ruggish?
Ooh, ain't shit changed Who the only nigga you know?
Who the only nigga you know, that's thuggish ruggish?
I still do the ditches with my song still fuckin' with the lights on
Sit up and real enough to look at the kids
And tell 'em momma ain't with us, us, us It won't be easy believe this
We were birth inside the fetus
Ghetto mamas still caught up in ghetto drama think of Columbine
Pop pop, what if it happened to mine? Will I get paid and keep quiet, or say, fuck that and start a riot?
Niggas lyin' to me demons keep flyin' to me
Chuckin' many in the street pimpin' me fakin' let's make history
My people keep the flame in me help me make this money on my family I can feel it even if I died burn me

They can't kill it if they wanted to my spirits keep on hauntin' you
Can't wait 'cause I'm the realest
I come with the wickedness and pillage the villageStick with runaways
Fuck these house niggas and grab your crotch nigga
You slouch rat mouse, niggas bounce
Niggas bounce, niggas bounceWho the only nigga you know?
Who the only nigga you know, that's thuggish ruggish?
Ooh, ain't shit changed
Who the only nigga you know?
Who the only nigga you know, that's thuggish ruggish?
Ooh, ain't shit changedWho the only nigga you know?
Who the only nigga you know, that's thuggish ruggish?
I still do the ditches with my song still fuckin' with the lights on
Sit up and real enough to look at the kids
And tell 'em momma ain't with us, us, us, usAnd my daddy, daddy, daddy's on the chain gang
Tell 'em 'bout the gun line boss the same thing
And I hope they took a good picture somebody's out to get ya
Lay me down shit's gonna happen right up wit chaI've seen murder on the news burnin' smellin' up the room
And the bang won't let me sleep
I put in me latch, latched with a broom
Strategize like, ahh, and it will materializeFantasize like, ahh, and never materialize
What am I the dead weight? It'll be okay
Im hopin' that choo choo ride out the real chance, real here
So all my people with AIDS we can sit down and play some spades
I ain't afraid to to die smoked with Eazy everydayWho the only nigga you know?
Who the only nigga you know, that's thuggish ruggish?
Ooh, ain't shit changed
Who the only nigga you know?
Who the only nigga you know, that's thuggish ruggish?
Ooh, ain't shit changedWho the only nigga you know?
Who the only nigga you know, that's thuggish ruggish?
I still do the ditches with my song still fuckin' with the lights on
Sit up and real enough to look at the kids
And tell 'em momma ain't with us, us, us, us
