

Luminosity

Jade Alice

LUMINOSITY â€“ JADE ALICE

Illuminate the world with the senses that you learned
And you saw it on the wall, that you thought you knew it all
Say the world will burn to ash, Mr taught you that in class
â€˜till one person made a sound, resonating it went round
(ooh ooh)
Luminosity begins when you hear it with your skin

CHORUS:

Church and steeple never stopped you calling people names
Donâ€™t let people ever stop you lighting up the place
We will not play in their game, to us they are all the same
Show them your smile dance in your style you just watch their faces

Illuminate the world with the love you have inside
Young miss Katie down the street caught that twinkle in your eye
Bad boys think they rule the scene â€˜cause they put rips in their jeans
You and Katie see it all, silly boys wont make us fall
(ooh ooh)
No they wont make us fall, they wont they wont make us fall

CHORUS

Here they come again
Here they come again
Iâ€™ve got no time for this, youâ€™re cooking my crumpets
Canâ€™t you see it now, you will not bring us down
In past youâ€™ve been mislead, come dance with us instead
Come dance with us, come dance with us instead
Come dance with us, come dance with us instead

Illuminate the world with the senses that you learned
And you saw it on the wall that you thought you knew it all
Say the world will burn to ash, Mr taught you that in class
â€˜till one person made a sound, resonating it went round
