# Restaurant

## Sound Effects Library

Can I take you to a restaurant, that has a bar
You can eat good, i know you like it like that
Then walk over to the bar,
No it ain't that far
And we can get drunk, you talk shh i talk back
Lets google somewhere that you would prefer
Do you like Middle Eastern food or Italian
Do you like Japanese, Moroccan, or Soul food
Tell me what you want, baby we'll go together
Take you where the floors, they rise up, rise up
The drink in your glass, lights up, lights up
And the flowers that surround our table, smell good,
In conjunction with your perfume, smells good
Can I take you to a restaurant, that has a bar
You can eat good, i know you like it like that
Then walk over to the bar,
No it ain't that far
And we can get drunk, you talk shh i talk back
We can go to a place off the beach, where the waters next to you
And the dolphins be swimming so close, that they could eat your food

We can go somewhere classy,
Or just keep it hood.
Anywhere in the world you'd want to go, baby it?s all good.
Take you where the floors, they rise up, rise up
The drink in your glass, lights up, lights up
And the flowers that surround our table, smell good,
In conjunction with your perfume, smells good
Can I take you to a restaurant, that has a bar
You can eat good, i know you like it like that
Then walk over to the bar,
No it ain't that far
And we can get drunk, you talk shh i talk back (x2)
Just name a place baby we can go
This ain't no goodbyes, its only hellos, hellos
Girl with a shot of hypnotic, it takes your body away
I'd be your personal chef, I'll feed you till nothings left
Can I take you to a restaurant, that has a bar
You can eat good, i know you like it like that

Then walk over to the bar,
No it ain't that far
And we can get drunk, you talk shh i talk back (x2)
