

# Big Sky

Annie Lennox

Big sky, Im gonna hurt you  
Big sky, youll remember this  
Big sky, up above the rain  
How can I ever put a stop to it  
Look you in the face again?Big sky, Ill never let you go  
Big sky, baby, I told you so  
Big sky, look at this swollen pride  
I got so busy looking out for you  
When were you by my side?When Im breathing, when Im sleeping  
I can think of nothing else  
All my longing, all my waiting  
All the things you never feltAll my weeping, all my wailing  
All my standing on the shelf  
How am I ever gonna get through this  
Back to myself again?Big sky, I never knew you  
Big sky, let me down again  
Big sky, giving you the blame  
How can I ever put a stop to this  
Look you in the face again?When Im breathing, when Im sleeping  
I can think of nothing else  
All my longing, all my waiting  
All the things you never feltAll my weeping, all my wailing  
All my standing on the shelf  
How am I ever gonna get through this  
Back to myself again?Wont you say it isnt so  
Watch me falling, see me falling  
I slip through the vortex of the skyDarkness and light  
Its whats inside  
Darkness and light  
Its whats inside
