

# If I Knew Then

[Emitt Rhodes](#)

If I knew then what I know now  
The blood would have frozen in my vein  
Every hair on my head would have stood on it  
Every nerve I have in vein I found out love and hope and broke  
I could have been so blind  
These days I take a closer look  
Can I read between the lines If I knew then what I know now  
I'd make amends I'd change somehow  
Wouldn't give my heart to just anyone  
If I knew then what was to come  
I gave my trust and not to pay  
How could I be so dumb  
I wish I'd live not once but twice  
Let turn tail run If I knew then what I know now  
I'd make amends I change somehow  
Wouldn't give my heart to just anyone  
If I knew then what was to come Abandoned our hope for you  
Went to here  
The future is dark and the way  
Not clear  
And your faith maybe worsen  
You might feel  
If I knew then what I know now  
I'd make amends I change somehow  
Wouldn't give my heart to just anyone  
If I knew then what was to come
