

I want you to give me enough time

Sunflower Bean

I want you to give me enough time to help me figure out
I want you to give me enough time to help me figure out
 You standing there
 Waiting for more
 More to hear
Your mind's all made but what's it made for?
What's your mind making up for?
I think you really want to know
I think I'd rather not find out
I want you to give me enough time to help me figure out
I want you to give me enough time to help me figure out
 You standing there
 Waiting for more
 More to hear
Your mind's all made but what's it made for?
What's your mind making up for?
I think you really want to know
I think I'd rather not find out
I want you to give me enough time (to help me)
I want you to give me enough time
