

# Ascend

## Stryke

When I first saw you  
You were without love  
But your fingers reached  
So I just moved in  
Tell me what I'm doing here  
Tell me what I'm doing here  
To my surprise I kissed you  
You made me rise  
Now by my side I've missed you  
And let it slide  
Tell me what I'm doing here  
Tell me what I'm doing here  
If all I ever wanted wasn't good for you  
If the things that I said, they just weren't true  
Ascend, ascend my friend  
I turned my head and looked back  
I had been led  
When my heart jumped, we lost touch  
Our love had slumped  
Tell me what I'm doing here  
Tell me what I'm doing here  
If all I ever wanted wasn't good for you  
If the things that I said, they just weren't true  
Ascend, ascend my friend  
I can see you looking down to keep away from me  
But I'm stuck with this lack of ability  
I can't refrain from coming here  
It causes pain, you're so sincere  
Ascend, I must ascend  
So now alone  
I find out your heart is stone  
A helping hand  
There is none from where I stand  
Tell me what I'm doing here  
Tell me what I'm doing here  
If all I ever wanted wasn't good for you  
If the things that I said, they just weren't true  
Then don't restrain from telling me  
That all this pain is good for me  
I can see you looking down to keep away from me  
But I'm stuck with this lack of ability  
I can't restrain from coming here  
It causes pain, you're so sincere  
Ascend  
What am I doing here?  
Tell me  
I must ascend  
Tell me  
Tell me  
What am I doing?  
What am I doing here?  
Tell me  
I must ascend, ascend

Ascend  
Tell me  
Tell me  
What am I doing?
