

Oh My Love

Christopher Owens

You never said you might be leaving
You never let on with those eyes
You always said it was forever
You always told such pretty lies You never wore it on your finger
You never told your mother's soul
You always gave me such a fever
And so much trouble in my soul()
Just like always, Oh my love
I know you're just foolin'
Just like always, Oh my love
Foolin' with my heart
I never thought I'd just be crying
When you ran away that day
I never thought I'd find another
And she could take the pain away I never felt somebody loved me
The way my baby loves me now
She took my heart and made me happy
That's why I'll never let her down()
Just like always, Oh my love
I know you're just foolin'
Just like always, Oh my love
Foolin' with my heart
(
Just like always, Oh my love
I know you're just foolin'
Just like always, Oh my love
Foolin' with my heart
