

Worth Fighting For

Blacklistt

Don't feel like mine
I know it hurts, But you want me to stay
Inside your world is dying
Beg and plead make this pain go away

And it feels so wrong...
I can't believe it feels so wrong...
Hush, bleed in time
On your knees, hold your breath as you pray
If what is left, is worth is worth fighting for
Beg and scream make this pain go away

And it feels so wrong...
I can't believe it feels so wrong
Is this worth fighting for
When it feels so wrong...

I lie and watch you dead inside
Everything dead tonight
I wont watch you die

And it feels so wrong...
I can't believe it feels so wrong...
Is this worth fighting for
When it feels so wrong...
