Sea Spray

Paul Weller

Carry me home, carry me home
You old sea spray
Carry me home, carry me home
You old sea sprayLike the million stars before you
You shine through the strictest curfew
And listening to the rules of no one
Just want to lay it over
Can you never see what I can see?Carry me home, carry me home
You old sea spray
Carry me home, carry me home
You old salt spray
Carry me home
You old sea spraySweep me up and take me with you
To see the things that stand before you
Show me all this world has for me
I want all the light can show me
I can only be what God can seeCome to carry me home
Come to carry me home
Want you to come to carry me homeCarry me home, carry me home
You old sea spray
Carry me home, carry me home
You old sea sprayCarry me home, carry me home
You old salt spray
Carry me home, carry me home
You old sea spray
