It Matters To Me

Jason Castro

I dreamed about your golden eyes
Every time I saw the sunrise
I picture you alone with no one there to hold you

Now I touch your soft, soft skin
So perfect like porcelain
Here we are, delicate once again, it's so true
That love is hard, we're space between
But I'm here now and listening

Oh baby what's on your mind?
Let's take it slow
I wanna hear every word you say tonight
Tell me how you feel when I'm away
Tell what you did just to pass the days
Tell me all the things I couldn't see
Cause it matters to me
It matters to me

You don't have to dry your eyes
Let's be weak for a little while
Listen now and save tonight for memory
And kiss me while the candles glow
It's almost time for me to go

Oh baby what's on your mind?
Let's take it slow
I wanna hear every word you say tonight
Tell me how you feel when I'm away
Tell what you did just to pass the days
Tell me all the things I couldn't see
Cause it matters to me
It matters to me

Oh baby what's on your mind?
Let's take it slow
I wanna hear every word you say tonight

Oh baby what's on your mind?
Let's take it slow

I wanna hear every word you say tonight
Tell me how you feel when I'm away
Tell what you did just to pass the days
Tell me all the things I couldn't see
Cause it matters to me
It matters to me
It matters to me yeah, yeah, to me.
