Is It Enough

Great White

All of my heart I give to you and take all the pain that we've been through
And though there were tears I look back on the years and still it puts a smile on my face
And so many times I just like to rewind to that place that place
Is it enough? baby time will tell that all is well my love
Is it enough? can we reason then that when it comes to love
Is it ever enough?
All your heart you gave to me and sometimes a tearful melody
But over the years as the tears disappear I can still put a smile on your face
Now we realise we've already arrived at that place that place
Is it enough? baby time will tell that all is well my love
Is it enough? can we reason then that when it comes to love
Is it enough? baby time will tell that all is well my love
Is it enough? can we reason then that when it comes to love

Is it ever enough?
You've always been there for me took the darkness from my world
And you cause the sun to rise and in my eyes you're the only light
Is it enough? [baby time will tell that all is well my love]
Is it enough? can we reason then [that when it comes to love]
Is it enough? baby time will tell that all is well my love
Is it enough? can we reason then that when it comes to love
[Is it ever enough?]yeah
Is it enough? baby time will tell that all is well my love
Is it enough? can we reason then that when it comes to love
Is it enough? baby time will tell that all is well my love
Is it enough? can we reason then that when it comes to love
Is it ever enough?
