

Ya Body

Audio Push

(Hook)

I love the way you move,
look at babygirl step, gotta be the dress,
it fit her like a glove, cos girl theres something
bout' you, I can't seem to take my eyes off

I think I just fell in love

(verse 1)

So I step up in the club, lil' mama bad
love how her hair go down lil' mama back
everything match from her dress to her bag
I don't see another girl movin' like that
and she movin' it right, so I gotta chase
and she stepped in here tonight, model body nice face
she movin' it like , nobodys in the place
so I gotta make her mine, put my hands on her waist and said

(Hook)

I love the way you move,
look at babygirl step, gotta be the dress,
it fit her like a glove, cos girl theres something
bout' you, I can't seem to take my eyes off

I think I just fell in love

(Chorus)

There's somthin' bout' ya body, ya body, ya body, oh
There's somthin' bout' ya body, (your) ya body, (your) ya body, oh

(Verse 2)

yeah, In case you didn't know baby they call me Price
drop top rippin' with my face in the light
your body lookin' nice, make me look twice
I'll knock it out the park while these other lames strike
no need to front' I want you here close
cos' out of every girl i've been watchin' you the most
you got me tryna' tug at your body no rope
and if you roll with me guranteed we gon' coast

girl if you can't see that , that i'm stuck in a trance when i'm watchin' you dance
it's just you and me, so skip all your other plans, i'm tryna' be ya man girl

I think what i'm sayin' is clear

cos' ain't nobody movin' like you swaying in here,
so ima pass your friends, grab your hands, pull you close and this is what im gon'

say in your ear

(Hook)

I love the way you move,
look at babygirl step, gotta be the dress,
it fit her like a glove, cos girl theres something
bout' you, I can't seem to take my eyes off
I think I just fell in love

(Chorus)

There's somthin' bout' ya body, ya body, ya body, oh
There's somthin' bout' ya body, (your) ya body, (your) ya body, oh

so do yo-do yo two step and let your hips flow
ready, set, go
now let it go now girl, now oooh your rockin'
just let it flow now girl, cos oooh your rockin'
now take it to the floor, floor, floor, floor, floor, floor, floor
now pick it up slow, slow, slow, slow, slow, slow, stop
