North Star

U2

Forty- five light years from home,
is where you are and
Where I wanna be beside you nowLooking for direction,
starved to your reflection,
to the space between you and me...
ahh...ahhI can't wait any longer for your love
I can't wait, I can't waitI can't wait any longer for it
I can't wait any longer for your love...
...ooh...oohThe birds still singing for them
when they fly above the government
It's not a song of discontent
I've money now, is even spentHere I am, a space cowboy
Looking out for love and logic
in the universe....yeah....yeahI can't wait any longer for your love
I can't wait, I can't waitI can't wait any longer for it
I can't wait any longer for your love
....ooh....oohAnd a day as it ends
and you watch as the sun goes down
Pray that the night will come quicklyYour hope, your prayer
that the clouds leave the sky alone
'cuz there's only one light that can guide you,
guide you....home....homeSay it! Say it! Say it! Say it!I can't wait any longer
I can't wait any longer for your love
I can't wait any longer for your loveI can't wait, I can't wait
I can't wait, for your love
for your loveIt's like the silence and shock
while the lights 're up there shining
You want it, you got it
You take it like a lover inside
