Save Yourself

Ignite

Everything you've said to me
Has been constant lies
Everyday you fail to see
I'm trying to help you
I'm losing grip on you
Can't seem to pull this though
You fight, can't win
Your time, at handWhere is your belief
Can you save yourself
One more time, one more lie
Will it ever endMore repetition of your failing ways
More ammunition, come and
Put you in your final place
Can't stand to see you lose
Your saving grace
Your fight, can't win
Your time, at handWhere is your belief
Can you save yourself
One more time, one more lie
Make it through another night
You're drowning in these waters
One more time, one more lie
Will it ever end
