

# If Only

## Masked Intruder

If only you and me could just be kids again  
Back before I went to prison  
Made all those decisions I'm known to regret  
If only you and I could just go back in time  
We could live across the street from each other  
And go to the same Junior High You could be my Winnie Cooper  
You could be my girl  
You could love me back this time  
And we could share the whole wide world Even if I had a time machine  
Would I have what it would take  
To really do anything differently  
Or would I just repeat the same mistakes?  
Cause I'm all alone and sometimes I feel  
Like I'm not my own or even at the wheel  
And I can't be blamed for mistakes that I remake  
If only, oh if only
