Anchors

Eva Under Fire

Every turn/ Another lie/ Another sundown/ Deadened sky/Another day/To sleep again/Another day that never endsâ€¦

vs1: Carrying the weight/ Stone became your fate/Never changing/Never failing/Trying to escape/ Brick and mortar that encases you/ Embraces you

prechorus: Hide the light/Let the night try to

chorus: Erase the day/You learned to fade away/ And make them see

Who you were always meant to be (x2)

vs2: Knife held to the rope/Cut the ties that bind you/ Hold you down/Your anchor now

Never letting all the world see what you decide/Never letting go and drowning right before my eyes

prechorus: Hide the light/Let the night try to

chorus: Erase the day/You learned to fade away/ And make them see

Who you were always meant to be (x2)

Bridge: No you/Donâ€™t/Need/Their anchors!

chorus: Erase the day/You learned to fade away/ And make them see

Who you were always meant to be (x2)
