

# Black Fire Upon Us

## Dethklok

Tonight We Ride On Clouds Of Fire  
We're Damned By Gods Our DETHS Conspired  
We Fear No Mortals In These Worlds  
The Gift We Give You Is Your Soul  
Fly With Us Tonight  
The Sky  
Will Break  
Black Fire  
Will Wake  
Fly On Through The Night  
We Built An Allience  
Our Numbers Are Strong  
We Gather  
But We Don't Prey To Gods  
What Fools What Lunitics  
They Must Think Of Us  
On This Night We Will Journey  
Far Behind This World  
And You Must Know That We Will Never  
Come Back Home Again  
But Now We Must Fly  
Beasts In The Night  
Tragic In The Sky  
Battlefield In Sight

Storm Gathers Strong  
Cold Blackend Flame  
Tell Us Our Future  
Stories Of The Slain  
Fire Grows Strong  
Freezing Our Skin  
Vision Is Clouded  
The Rain Will Begin  
Dangerous Creatures  
Those That Oppose Us  
Raped All Their Power  
Bartered With Warlocks  
Cheated The Demons  
For Ancient Spells

The Blackened Fire  
Waits To Consume Us  
So Now We'll Say Goodbye  
Because Tonight We Die  
So We Say Goodbye  
So We'll Say Goodbye  
We Die  
Tonight We Ride On Clouds Of Fire  
We're Damned By Gods Our DETHs  
Conspired  
We Fear No Mortals In these Worlds  
The Gift We Give You is Your Soul
