Try Me

Robi Draco Rosa

Try me, move beside me
Now look at my face
Look me in the eye
Yeah baby try meTry me, try me
Try me this time
Just get a little closer
Lookin' me in the eyeTry me, move a little closer
Try me, baby move a little closer
And you can't let goEvery time we're riding
I feel you closer to the night
And you're moving next to me, just try
Do you wanna step out side?
Yeah, baby try me, try me, yeah girlNo time like this time
I move along sweet lie
I tried real hard to hold you
I wanna find open eyesIf you feel it's time to go
If you can't hold on
Than you can't let goEvery time we're riding
I feel you closer to the night
And you're moving next to me, just try
Do you wanna step out side?
Yeah, baby try me, try me, yeah girlEvery time we're riding
I feel you closer to the night
And you're moving next to me, just try
Do you wanna step out side?
Yeah, baby try me, try me, yeah girlEvery time we're riding
I feel you closer to the night
And you're moving next to me, just try
Do you wanna step out side?
Yeah, baby try me, try me, yeah girl
