

Kick Down The Walls

Toto

Took the long way to the shortcut
And the walls were made of stone
Took the low road to the high ground
Had to feel it in my bones, yeahEverybody wants some heaven
But nobody wants to die
It's been brought to my attention
You'll be dead a long time, now ain't that a crimeKick down the walls, shake down the buildin'
Help me bust out of this cage
Kick down the walls, shake down the buildin'
Must be time for a changeI went driving in the moonlight
There was no place left to go
I went digging in my coal mine
When I hit the mother load, yeahIf this world could work together
Like a big old human clock
It would run on 'til forever
It would never have to stop, never have to stopAnd we kick down the walls, shake down the buildin'
Help me bust out of this cage
Kick down the walls, shake down the buildin'
Must be time for a changeYou can't buy no protection
And I don't care who you are
Spreading out in all directions
Now it's no hold barred, yeahEverybody runs for cover
From the sun and sex and sin
If you think you got the answers
Buddy, just you come on in, step right inAnd we kick down the walls, shake down the buildin'
Help me bust out of this cage
Kick down the walls, shake down the buildin'
Must be time for a changeKick down the walls, shake down the buildin'
Help me bust out of this cage
Kick down the walls, shake down the buildin'
Must be time for a changeKick down the walls, shake down the buildin'
Kick down the walls, shake down the buildin'
Kick down the walls, shake down the buildin'
Kick down the walls, shake down the buildin'
