A Lie

Kelela

No holding back, youre wonderful and you fed a lie
I just wanna be the one
Girl wait for me
And this is goodbye
I just wanna be the one
Youre looking for an innocence, a lieThis heavy name,
Cant wait for me and this is goodbyeHang up, I knew you loved her
Oh, know what moved her
Hang up, making you love her
In the end I accept herSay what? Dont make me feel
Carry a lie
Know enough for me to make you sweat
And I feel that I am there
Tell you what
You make me feel you carry a lie
No one to make me feel, you carry a lie
A million secrets yeaNo, no baby
Youre wonderful and you fed a lie
I just wanna be the one
Girl wait for me
And this is goodbye
I just wanna be the one
Youre beautiful and this is a lieCare deep and cant make it her
And this is goodbyeHang up, I knew you loved her
Oh, know what moved her
Hang up, making you love her
In the end I accept her
