All You've Given

Carl Thomas

Uh girl, I love you, I love you
Place no one above you
Can't you see that you're the one for me
And I don't think that I want to
Fill this life without you
You're the best love I've ever known
And it's all my ownShe gives me love like the warm sunshine
Hanging over my shoulder
And she makes me smile
Every time I'm looking in her face
And every time she leaves my world's
Just a little bit colder
So baby with all that you've given to me
I'm making sure you're happyUh girl, can't wait until tonight
'Cos pleasure is delight
With your warm body
By the fire place
Oh girl, want you to depend on
My love and my strong arms
'Cos you know they feel so good and natural
She gives me loveShe gives me love like the warm sunshine
Hanging over my shoulders
And she makes me smile
Every time I'm looking in her face
And every time she leaves my world's
Just a little bit colder
So baby with all that you've given to me
I'm making sure you're happyI got a friend on you
I can depend
She lifts my heart
Whenever I need
I think I'll do almost anything
I believe you would accept my ring
Much more than a feeling
Girl, you're my lifeShe gives me love like the warm sunshine
Hanging over my shoulders
And she makes me smile
Every time I'm looking in her face
And every time she leaves my world's

Just a little bit colder
So baby with all that you've given to me
I'm making sure you're happyShe gives me love like the warm sunshine
Hanging over my shoulders
And she makes me smile
Every time I'm looking in her face
And every time she leaves my world's
Just a little bit colder
So baby with all that you've given to me
I'm making sure you're happyShe gives me love like the warm sunshine
Hanging over my shoulders
And she makes me smile
Every time I'm looking in her face
And every time she leaves my world's
Just a little bit colder
So baby with all that you've given to me
I'm making sure you're happyYeah yeah yeah, baby
Every single time
Every single time
I'm making sure you're happy
