Down the Devil's Road

Freakhouse

Down the Devil's road

I know you'll take me down
Better than I thought my heart is beating fast
And now I see, it won't take long
Take a deep breath, it'll be your last

Show me your love
Show me your hate
You are my favorite drug
Do you feel the pain
Gimme the highs
Gimme the lows
Feels like I'm walking through flames
Down the Devil's road

I take a long deep drag
Better than I thought my heart is beating fast
And I can see when I close my eyes
Colors explode, forget the past

Show me your love
Show me your hate
You are my favorite drug
Do you feel the pain
Gimme the highs
Gimme the lows
Feels like I'm walking through flames
Down the Devil's road

I've waited so long to see you fall
You're going down, to lose it all

Show me your love
Show me your hate
You are my favorite drug
Do you feel the pain
Gimme the highs

Gimme the lows
Feels like I'm walking through flames
Down the Devil's road
