

# Down the Devil's Road

## Freakhouse

Down the Devil's road

I know you'll take me down  
Better than I thought my heart is beating fast  
And now I see, it won't take long  
Take a deep breath, it'll be your last

Show me your love  
Show me your hate  
You are my favorite drug  
Do you feel the pain  
Gimme the highs  
Gimme the lows  
Feels like I'm walking through flames  
Down the Devil's road

I take a long deep drag  
Better than I thought my heart is beating fast  
And I can see when I close my eyes  
Colors explode, forget the past

Show me your love  
Show me your hate  
You are my favorite drug  
Do you feel the pain  
Gimme the highs  
Gimme the lows  
Feels like I'm walking through flames  
Down the Devil's road

I've waited so long to see you fall  
You're going down, to lose it all

Show me your love  
Show me your hate  
You are my favorite drug  
Do you feel the pain  
Gimme the highs

Gimme the lows  
Feels like I'm walking through flames  
Down the Devil's road
