

# Voyager of the Future Race

Eloy

Citizens of the world, rejoice!!  
As of today, a new chapter of mankind's history has begun.  
We have solved nature's last mystery  
It's ultimate secret and have finally found the key to eternal life.  
Not only are you now all equal  
You are also a privileged new generation  
Chosen to live forever!!!!  
Welcome to immortality!!!!  
Behold our world  
At last we're all equal  
Life and death have now lost their meaning  
Time's alive inside of our bodies  
'Coz nature's secrets are unveiled so we cry out  
Now we've found just what we're all about  
So long ago we searched for an answer  
Life and death are now just a status  
Look around you'll see a celestial glow  
There's a high reward to our days of strife  
Now we've found eternal golden life  
Deep in your soul you'll feel  
Doubts setting in  
A cry that fills your veins with fear is burning inside  
A craving so strong, oh so strong for the real breath of life  
I feel my heart beat  
The icy hand of wind  
Brushing my skin in the night  
I'm imprisoned inside  
A future predestined so far  
Takes control of my life  
Voyager of the future race  
You drew the shorter straw  
Chaos reigns all emotions all around  
Panic sweeps the mind  
And silence rebounds  
Bouncing back from afar  
ahhhhhhhhhhhhhhhhhhhhhhhhhhhhhhhhhhhhhhh  
The nights are cold and long when you're lonely  
Wake up your mind right now or you're wasted  
Times goes by so fast at a steady pace

So disillusioned for the price we pay is high  
Don't look down or you might fall  
So be deaf to nature's call  
Don't think twice and let your mind fly by
