

# What Is Love

## Bojoura

What is love,  
is it the feelin that i get  
when your lips touch mine..... (You know love is whatever you make it girl)  
(come on)

Is it the way i cant control myself,  
when we're in the middle of those passionate nights.... Babe!  
(is like everytime im with you baby)

Magic:

I think love is when i look into your eyes  
the way it seems like your body was meant to be  
every minute right here next to mine  
my super sexy valentine

Tiffany:

But you must of known.....  
that all the little things you do and say to me  
you know i love them, but they got me wondering..

Tiffany:

what is love, is it the feelin that i get when your lips touch mine.....  
Is it the way i cant control myself when we're in those passionate nights.... babe!

Magic:

nobody ever gonna love your momma like i will  
turn off the lights and bring your body closer  
this night was made for you and I  
slowly momma take my time

Tiffany:

Baby boy... can you show me the meaning of love...  
cause i got to know...

what is love is it the feeling that i get when your lips touch mine...  
is it the way i cant control myself when we're in the middle of those passionate nights.... babe!  
what is love is it the feelin that i get when your lips touch mine..... is it the way i get when we're in the middle  
of those passionate nights... babe!
