Overdrive

3PM

Cross our hearts and hope to find
Another day that we'll survive
We're still young and so alive
â€˜Cause we're just kids in overdrive

Writing myself to sleep
Promises I can't keep
Mistakes I won't repeat
Gonna kick it, gonna kick it into overdrive

These visions in my mind
Of something I can't find
A sudden sure-fire sign
Gonna kick it, gonna kick it into overdrive

Feel the weight
About to break
We're gonna find our way

Cross our hearts and hope to find
Another day that we'll survive
We're still young and so alive
â€˜Cause we're just kids in overdrive

Hands tied behind my back
Iâ€™m slowly losing track
Of dreams I thought I had
Gonna kick it, gonna kick it into overdrive

Weâ€™re revolutionary
Weâ€™re far from ordinary
Weâ€™re sick of wasting time
Gonna kick it, gonna kick it into overdrive

Feel the weight
About to break
We're gonna find our way

Cross our hearts and hope to find
Another day that we'll survive

We're still young and so alive
â€˜Cause we're just kids in overdrive
