

In the Clouds

Weaselhead

day and night
you stay and fight
you say youâ€™re gonna leave here
you say youâ€™re gonna leave tonight

for your king
and for your country
youâ€™re fighting for their freedom
you fight until you die tonight

and forward they open up
and forward they march away
I canâ€™t just sit and explain
and not feel the same today

and someday theyâ€™ll understand
that you were a family man
tell all your children who cried
that it was for them you died

years go by
donâ€™t you cry
you know youâ€™re gonna leave here
you know youâ€™re gonna leave someday

you took the pain
drove you insane
and then one day youâ€™re leaving
and then one day youâ€™re in the clouds

and so much they had to say
and so much they took away
I canâ€™t just sit and complain
and not feel ashamed today

and forward they sent you off
and forward you walked away
I canâ€™t just sit and explain
and not feel the same tonight
