Sedated

Xymox

Queing up
Body searched
Ripped off
In the face of a guy with a grin
Feeling blessed whe he lets you in
Raise your hands, the night begins
Raise your hands, the night beginsBroken thrills
Broken pills
Vibrate
Your eyes dilate
Raise your hands, the night begins
You wanna be sedatedSay what you feel, do what you want
You look so good, you look so fine
Raise your hands, raise your hands
In the ultimate sky
Get high
You wanna be sedated
