

# Like A Fox

## Manassas

Wake up my dreams were so much harder than yours  
The night turns to day and the sunshine sharpens her claws  
Save the dreaming for the day Just a phase, out of touch  
Foul play fortress, run amok  
Higher than youve flown before  
Gravity beckons the floor Like a fox, from a gun  
Come unstuck then come undone  
She will soon, depart arrive  
Due in time to keep the night alive  
Save the dreaming for the day Street lights, head lights  
Red lights, heed to green  
Tree lights, mirrors, free for greed Long hair, short hair  
Apartheid, bleached hair frown  
Our cogs still  
Turn in beat in time
