The Great Divide

Willie Nelson

Here we are
Standing where the highways cross
Here we are
Sayin' goodbyeJust another love
Lost in the great divideHere we are
Acting like two crazy kids
We've come too far
To ever see it end like thisJust another love
Lost in the great divideRemember how we used to dance together?
Remember how I used to hold you tight?
You asked me if I'd leave and I said never
And that's still rightSummer sun
No prettier than summer rain
Summer gone
Summer coming back againOther loves
Lost in the great divideRemember how we used to dance together?
Remember how I used to hold you tight?
You asked me if I'd leave and I said never
And that's still rightSummer sun
No prettier than summer rain
Summer gone
Summer coming back againOther loves
Lost in the great divideOther loves
Lost in the great divide
